BALTICA Estland Lettland Litauen 1918-1941 Die Sammlungen Dr. Hubert Schrödinger

Dr. Hubert Schrödinger, Jahrgang 1930, ist Inhaber der Firmengruppe LEIPA – Georg Leinfelder GmbH. Er ist den meisten bekannt als erfolgreicher Geschäftsmann, der das Familienunternehmen im Bereich der Papier- und Kartona- genproduktion erfolgreich führt. In München geboren, besuchte Dr. Hubert Schrödinger in seinem Heimatort Schrobenhausen das Gymnasium und machte 1949 Abitur. Nach seinem Studium der Wirt- schaftswissenschaften, einem Ameri- ka-Aufenthalt und einer erfolgreichen Karriere in

einem Konzern der Papierindustrie übernahm er in seiner Heimat Schrobenhausen die Verantwortung für das schon aus Vorgenerationen in Eigen- tum befindliche Unternehmen. 1961 übernahm er

die Geschäftsfüh- rung von seinem Vater. In der Bran- che als Visionär geschätzt, stieg er nach dem Mauerfall in das Geschäft des Recyclingpapiers ein. Ein Meilenstein in der modernen

Entwicklung der Unternehmensgruppe war das Investment im brandenburgischen Schwedt in eine Papiermaschine höchster Qualitätsansprüche zur Produktion von Magazinpapier. Die Firmengruppe hat etwa 1.500 Mitarbeiter und ist international stark vernetzt mit Unternehmen in Frankreich, Großbritannien, Polen, Österreich und anderen Ländern der EU.

Schon der junge Hubert Schrödinger war begeisterter Briefmarkensammler. In den Anfangs- zeiten seiner Beschäftigung mit dem Hobby war

Dr Hubert Schrödinger, who was born in 1930, is the owner of the ‚LEIPA - Georg Leinfelder GmbH‘ group of companies. He is best known as a successful busi- nessman, leading the family business successfully in the field of paper and cardboard production. Born in Munich, Dr Hubert Schrödinger attended high school in his home- town of Schrobenhausen, taking his final exams in 1949. After his stu- dies in economics, some time spent in America and a successful career

with a firm in the paper industry, he assumed responsibility for the company that had been in his family for generations in his hometown of Schrobenhausen. In 1961 he took over from his father as managing director. Held in high regard in the industry as a visionary, after the fall of the Berlin Wall he went into the business of recycling paper. An important investment at Schwedt in Brandenburg in a paper machine of the highest quality standards for the production of magazine paper was a milestone in the modern develop- ment of the group. The group has about 1,500 employees and has good connections with companies in France, Great Bri- tain, Poland, Aus- tria and other EU countries.

As a youth, Hubert Schrödinger was already an avid stamp collector. In the early days of his involvement with the hobby he was not yet a specialist. He had many country collections, in particular European countries and some from out- side Europe. One day a business friend offered

er noch nicht spezialisiert. Er hatte viele Ländersammlungen, insbesondere europäischer Länder und einiger Länder aus Übersee. Eines Tages hatte ihm ein Geschäftsfreund eine Sammlung Litauen-Berliner Ausgaben angeboten, die sofort Dr. Schrödingers Interesse fand. Die Übernahme dieser Sammlung war zugleich der Beginn einer großen Leidenschaft! Nicht nur die Sammlung Litauen, sondern auch Sammlungen der anderen baltischen Staaten Estland und Lettland wurden auf- und im-

mer tiefer gehend und spezialisiert ausgebaut. Im Laufe der Jahrzehnte hat Dr. Hubert Schrödinger Sammlungen dieser Gebiete geformt wie kaum ein anderer Sammler. Er erwarb ganze Sammlungen, unter anderem die Gnädig-Kollektion oder Stücke aus den Sammlungen Mikulski oder Teetsov, die er in seine bereits enorm umfangreichen Sammlungen integrierte. Die komplexen geschichtlichen Entwicklungen dieser anspruchsvollen Sammelgebiete hatten es Dr. Schrödinger besonders angetan. Ob die Marken der ‚Stammländer‘ der Gebiete Estland, Lettland und Litauen, oder die Marken der Besatzungszeiten, oder Besonderheiten der Flugpost: Dr. Schrödinger machte vor keinem dieser hochinteressanten und anspruchsvollen Perioden Halt. In den Sammlungen befinden sich etliche Stücke, die in Auflagen von weniger als 10 Exemplaren bekannt sind, deren heutiges erneutes Auftauchen zum Teil zu Ergänzungen zu den bekannten Handbüchern führen werden! Probedrucke finden sein ganz besonderes Interesse, ebenso nicht ausgegebene

him a country collection of Lithuania, which immediately attracted Dr Schrödinger's interest. At the same time, the acquisition of this collection was the beginning of a great passion! Not only the collection of Lithuania, but also collections of the other Baltic countries Estonia and Latvia were begun, and these became larger and more specialised. Over the decades Dr Hubert Schrödinger has built up collections of these areas that are almost unparalleled. He acquired entire collections, among others the Gnädig collection, and portions of the Mikulski and Teetsov collections, which he integrated into his already extremely large collections. The complex historical developments of this demanding collecting area particularly appealed to Dr Schrödinger. Whether they were stamps of the ‚main‘ territories of Estonia, Latvia and Lithuania, or the periods of occupation, or specific aspects of air mail: Dr Schrödinger never hesitated to study these highly interesting and challenging periods. There are quite a number of items in the collections of which less than ten examples are known, which when they are now offered will lead to some additions to the standard handbooks! Proofs, as well as stamps that were never issued, have always attracted his particular interest. Dr Schrödinger's collecting passion has, naturally, not been restricted to the main countries. The smaller areas,

Marken. Dr. Schrödinger hat es bei seiner Sammelleidenschaft natürlich nicht nur bei dem jeweiligen Hauptgebiet belassen. Die Nebengebiete, Lokalmarken, Besetzungsausgaben, Flugpost, etc. sind natürlich in großer Breite ebenso vertreten! Stets hat Dr. Schrödinger auf die Ausgewogenheit seiner Sammlungen der baltischen Staaten geachtet: Briefe und Ganzstücke sind in genauso beeindruckender Menge und Qualität vorhanden, wie Essays, Proben, Marken, Stempel und Einheiten!

Das Baltikum ist Philatelisten mehr oder weniger als zusammen gehörende Einheit dreier Länder an der Ostsee präsent. Wenn man sich mit den Gebieten auseinandersetzt, und sich mit den Sammlungen ‚BALTICA‘ Dr. Hubert Schrödinger näher befasst, werden die unterschiedlichen Charaktermerkmale dieser spannenden Gebiete offensichtlich!

local stamps, occupation issues, air mails etc. - wide ranges of these are also of course represented! Dr Schrödinger has always been careful to maintain a sense of balance in his collections of the Baltic States: covers and postal stationery items are to be found in equally impressive quantities and quality as essays, proofs, stamps, postmarks and multiples!

To philatelists, the Baltic area is a more-or-less combined study of three countries around the Baltic Sea. When one looks at these areas more closely, studying the ‚BALTICA‘ Dr. Hubert Schrödinger collections in more detail, the different characteristics of these exciting areas become apparent!

ESTONIA

The Declaration of Independence and The First Stamp of Estonia

After the Bolshevik takeover of power in Russia during the October Revolution of 1917 and German victories against the Russian army, between the Russian Red Army's retreat and the arrival of advancing German troops, the Committee of Elders of the Maapäev issued the Estonian Declaration of Independence in Pärnu on 23 February and in Tallinn on 24 February 1918. On 25 February 1918, the German occupation authorities gained control over the Tallinn Post Office and liquidated the former postal service. On 13 November 1918 the Commander of the Estonian Defence League Colonel Johan Unt appointed Hindrek Rikand with a directive as the Commandant of the Tallinn Post and Telegraph Office and ordered him to take the Office under his guard. The Estonian Postal Administration considers this date as its date of organizational establishment.

The first Estonian stamps were put into circulation in November 1918. On 22 and 30 November, the first stamps bearing a flower ornament and having the nominal values of 5 and 15 kopecks were issued. These first issues were printed by the Böläu Printing House in the town of Nõmme (now a district of Tallinn). The perforated 15 kopecks of the Flowers Issue was a perforation trial ordered by the Postal Authorities. The trial was made on sheets of printers waste from the 1st and 2nd printings (perf. 11½). The marginal stamps were not perforated on the outside. Therefore, there are stamps perforated only on three or two (corner stamps) sides. The trial was not considered successful and therefore not repeated. The total number of the perforated stamps is not known and very likely it will remain unknown.

According to Schönherr, the Post Office in Tallinn sold about 6,500 stamps to a dealer, who sent most of them via Finland to Germany. The package never arrived and its fate is still unknown. It has been mentioned in the literature that a small number of stamps was sold over the counter by the Post Office. The exact figure is also unknown.

The total number of the stamps still in circulation is thought to be no greater than 1000 of which genuine items are very rare. Most of the "perforated" stamps in collections are forgeries or private perforations - which can be recognized by good perforation quality and the stamps mostly being from the 4th and 5th printings. Especially rare is the block of four and naturally on cover. Probably 2-3 covers may exist at all. The perforated 15 kopecks of the Flowers Issue remains one of the most rare and mysterious postage stamps of Estonia.

Estonia joined the Universal Postal Union (UPU) on 19 May 1922. In addition to the ordinary mail (based on road transport), Estonia also had a ship and air mail services. Naval transport was used for sending mail to Helsinki and Stockholm. In 1923, Aero-naut Airlines began to carry mail six times a week to Helsinki and Riga. Before the start of the Second World War (in 1939) and the Soviet annexation (in 1940) a total of 163 stamps and 4 stamp blocks were put into circulation.

2-10 k. with additional franking tied by cds. „REVAL -2 5 19“ (!!) to slightly overpaid registered cover addressed to Mr. Senf in Leipzig, with censor and arrival mark. Studies evaluating the local issue Tallinn seems contradictory. According to the official record of the Estonian Postal Administration, the stamps were overprinted on the 5th of May 1919 and issued on the 7th of May 1919. On the other hand, it is known that the handstamp „Eesti Post“ has been delivered to the Postal Administration „around the 27th of April“. The production of a total of 14000 stamps within 10 days appears more likely than within two days on May 5th-6th. Backflap missing, otherwise very fine with detailed certificate Löbbering BPP and certificate Mikulski describing these stamps as proofs

The Post in Latvia

We know that in the 17th century, when under Swedish control, „Lifland“ already had a well-organised system of courier posts. The first post office was opened in Riga in 1625, and we know from published tariffs that there has been a general postal service in the Baltic area since 1632. After the Russian Tsar Peter I gained control of Lifland from Sweden in 1710, and also the Duchy of Kurland which remained independent until 1795 (and whose postal service had been established by the Polish crown), Latvia remained in Russian hands until the time of the First World War. However, prestamp covers can be found, dating from up to the mid-1800s, bearing postmarks inscribed in German, as Lifland and Kurland, despite being Russian gubemii and having Russian governors, still had their own administration in the hands of the Baltic German hierarchy.

Until 1915, and partly until 1918, the territory of Latvia belonged to the Russian Empire, and Russian stamps were valid there. During the German occupation of the Baltic area during the First World War, the „Ob. Ost“ stamps were introduced. After independence was established, the first Latvian stamps were issued in December 1918. Soon afterwards, in 1919, Lifland and a large part of Kurland were occupied by Bolshevik troops, and so postage was free within those areas, with Imperial Russian and „chain-breaker“ stamps used for additional services.

In the summer and autumn of 1919 there was the Bermond-Awaloff administration, during which the overprinted stamps for the volunteer Western Army appeared. Only in the winter of 1919-20, after the liberation of all the territory of Latvia from foreign enemies, was a fully independent Latvian postal administration in operation. This came to a temporary end with the Soviet occupation of 1940.

Latvian independence was re-established on 21 August 1991, and the first stamps of the newly independent Latvian republic were issued on 19 October 1991. Soviet stamps remained valid until 30 June 1992, either alone or in combination with Latvian stamps, but from 1 July 1992 only Latvian stamps could be used to prepay postage.

The initial Ruble- and Kopek-currency was borrowed from Russia. Also in use in Latvia were Tsarist Ruble-notes, Rubles of the Kerensky government, „Ob. Ost“ Rubles which had been introduced during the German occupation, and finally „Ob. Ost“ Marks, one Mark being equal in value to half a Ruble. The Latvian Ruble notes, introduced in 1918, gradually superseded all previous currencies.

In 1922 the currency was reformed; a Latvian Ruble was made equal to two santim, so that a new „Lat“ became the equivalent of 50 old Rubles. Soon afterwards parity with the Swiss franc was established, so that on the world currency markets 1 Lat = 1 Sfr.

Postage rates changed frequently, especially in the early years. All the postage rates for different items have still to be determined. Quite often, rates changed only for individual classes of mail, and so detailed research in contemporary publications must be undertaken. The following overview of rates will, however, suffice for most classes of mail.

Postal History in Lithuania

During the Russian occupation 1796-1915, postal services were regulated by the Russian authorities. During the German occupation 1915-1918, the Postgebiet Ob-Ost handled the military and other mail of the Germans. Ultimately limited postal service was extended to the natives, at first as parcel service for POWs. By 1918, a number of German military post offices added "Litauen" to cancelling stamps.

The first Lithuanian postage stamps were issued in December 1918. The first set of 10 and 15 skatikas (pennies) stamps of Lietuvos Pasta within a rectangle, was set up and printed by typesetter Jonas Strazdas, in the printing shop of Martynas Kukta in Vilnius, by order of the first Postmaster General, Benediktas Tamosevicius. The first edition was limited to 5000 sets, and a larger second edition was printed Dec. 31, 1918. The first color stamps were designed by Tadas Daugirdas and Kazys Simonis, and were printed in Berlin on February 17, 1919, followed by several more issues.

Because of the short supply of stamps, some local post offices printed their own stamps, as in Raseiniai and Telsiai. Leftover Russian stamps were surcharged in Gardinas (Grodno). A special issue was released in 1920 when the Constituent Assembly met. A total of 768 stamps of different designs were issued by independent Lithuania, with more than 2,000 variations due to errors, misprints or perforation. First air mail stamps were issued in 1921, even though a regular air mail service was inaugurated only in 1924. A great many special issues observed significant anniversaries, v.z., the 500th anniversary of demise of Vytautas the Great (1430), the Battle of Tannenberg (1410), the Battle of Sialuliai (1236), King Algirdas at the Kremlin Gate,

etc. Other issues marked special events, like the Transatlantic New York to Kaunas Flight of Darius and Girenas (1933), the National Olympics (1938), Third European Basketball Championship Games (1939). A number of issues honored the ancient rulers, leaders of the national renaissance, cultural leaders, poets, writers, etc. The last series of the Republic of Lithuania was the Peace issue of 1940. These stamps were later overprinted by the Soviet occupant. During the Insurrection a year later, former Soviet stamps were overprinted "Independent Lithuania." The Nazis then introduced German stamps overprinted Ostland. The history of the Klaipeda or Memel District is easily traced through stamps of Germany, France, local, Lithuanian, again German.

Handbuch und Bewertung der Stempel 1920 bis 1925 von Tobias Huylmans

Es gibt nicht viel Literatur über das Sammelgebiet Memel. Erwähnenswert ist das Buch ‚Die Postmarken des MEMELGEBIETES 1920 bis 1925‘ von J. W. Heinz Ludwig aus dem Jahre 2006. Dieses Buch behandelt insbesondere die Briefmarken der Zeit, außerdem gibt es noch den ‚Fugalewitsch Stempelkatalog - Pasto Antspaudai Lietuvoj‘ sowie die ‚Becker Stempeltafeln‘.

Ab Ende Oktober/Anfang November 2015 wird das neue **vierfarbig** angelegte Stempelhandbuch **mit Bewertungen** erhältlich sein. Das Buch enthält alle vorhandenen relevanten Informationen zu jedem Poststempel des Memelgebietes zwischen 1920 und 1925. Zusätzlich ist jeder Stempel abgebildet, beschrieben und bewertet. Überall, wo Briefe erhältlich waren, hat der Autor eine Abbildung eines Ganzstückes eingefügt. Jedem Stempel wurde in dem 27 x 20 cm großen Werk eine komplette Seite gewidmet. Das Buch wird ca. 260 Seiten umfassen.

Sichern sie sich heute Ihr Exemplar durch Vorbestellung bis zum 30. September 2015! Lieferung erfolgt Ende Oktober/Anfang November für EURO 49,- (Festeinband) bzw. 39,- (Softeinband). Die ‚Normalpreise‘ für Besteller nach dem 30.9.2015 betragen EURO 59,- (Festeinband) bzw. 49,- (Softeinband).

Bestellungen werden entgegengenommen von **Heinrich Köhler GmbH, Wilhelmstraße 48, 65183 Wiesbaden, info@heinrich-koehler.de** oder bei **Tobias Huylmans, Spiegelbergstrasse 33, 55283 Nierstein, tobias@huylmans.de** - Lieferung erfolgt solange der Vorrat reicht.

Allgemeine Versteigerungsbedingungen

1. Die Versteigerung erfolgt ausschließlich in fremdem Namen und für fremde Rechnung.
Der Versteigerer ist berechtigt, die Rechte des Einlieferers aus dessen Auftrag und aus dem Zuschlag im eigenen Namen geltend zu machen.
2. Den Zuschlag erhält der Höchstbietende. Der Versteigerer hat in begründeten Fällen das Recht, den Zuschlag zu verweigern, Lose zurückzuziehen, umzugruppieren oder aufzuteilen. Bei gleichhohen Geboten entscheidet das Los. Ein Bieter bleibt an das abgegebene Gebot gebunden, wenn ein nachfolgendes Übergebot ungültig ist oder vom Versteigerer sofort zurückgewiesen wird. Der Versteigerer kann den Zuschlag zurücknehmen und das Los erneut anbieten, wenn irrtümlich ein rechtzeitig abgegebenes höheres Gebot übersehen worden ist oder wenn sonst Zweifel über den Zuschlag bestehen. Der Versteigerer kann unter dem Vorbehalt der Genehmigung des Einlieferers zuschlagen. Der Bieter bleibt dann an sein Gebot 4 Wochen ab dem Tag des Zuschlags gebunden. Bei einem Zuschlag unter Vorbehalt kann die Position ohne Rückfrage an einen anderen Limitbieter abgegeben werden.
Mit dem Zuschlag kommt zwischen dem Einlieferer und dem Ersteigerer ein Kaufvertrag zustande.
3. Schriftliche Aufträge werden in jedem Fall gewissenhaft und interessewährend, jedoch ohne Gewähr, ausgeführt. Die gebotenen Höchstpreise werden nur soweit ausgeschöpft, als es nötig ist, sonstige Gebote zu überbieten. Bei Geboten mit „bestens“ kann der Versteigerer bis zum Dreifachen, bei Höchstgebotsaufträgen (z.B. „höchst“, „auf alle Fälle“, „bis Ultimo“, „kaufen“) bis zum Zehnfachen des Ausrufpreises bieten. Das Mindestgebot für Auktionslose ohne Schätzwert bzw. Schätzwert „Gebot“ beträgt EUR 10,-. Online-Direkt-Gebote über das Internet bedürfen der vorherigen Anmeldung beim Versteigerer und dessen Zustimmung. Für die Bearbeitung übernimmt der Versteigerer jedoch keine Gewähr; er haftet insbesondere nicht für das Zustandekommen der technischen Verbindung. Das Widerrufs- und Rückgaberecht bei Fernabsatzverträgen findet auf solche Gebote keine Anwendung (§ 312 d Abs. 4 Nr. 5 BGB).
4. Der Versteigerer erhält vom Käufer eine Provision von 20 % des Zuschlagspreises sowie EUR 1,50 je gekauftem Los. Die Kosten für Porto, Verpackung, Versicherung und ggf. Import werden den Käufern in Rechnung gestellt. Die auf Provision und sämtliche sonstigen Leistungen (=Spesen) anfallende Mehrwertsteuer (derzeit 19 %) wird gesondert in Rechnung gestellt. Dies gilt auch für die Mehrwertsteuer auf Lose (derzeit 19 %) die mit einem Kreis (o) gekennzeichnet sind. Lieferungen in Drittländern sind gegen Vorlage des Ausfuhrnachweises von der USt. auf die Provision, auf Spesen, Losgebühr und eventuell Lospreis befreit. Lieferungen an Abnehmer aus anderen EU-Ländern mit UID-Nr. erfolgen unter Anwendung des Reverse Charge-Verfahrens, d.h. die Provision, die Spesen und die Losgebühr unterliegen nicht der Deutschen Umsatzsteuer; der Käufer ist in diesen Fällen verpflichtet, die USt. in seiner USt.-Erklärung in seinem Heimatland anzugeben.
5. Der Zuschlag verpflichtet zur Abnahme. Saalbieter haben die Kaufrechnung sofort auszugleichen, bei schriftlichen Bietern wird die Auktionsrechnung mit Zustellung fällig. Während oder unmittelbar nach der Auktion ausgestellte Rechnungen bedürfen einer besonderen Nachprüfung und eventueller Berichtigung; Irrtum vorbehalten. Wer für Dritte bietet, muß seine Vertreterstellung vor Beginn der Versteigerung offenlegen; andernfalls kommt der Kaufvertrag mit dem Bieter zustande. Bis zur vollständigen Zahlung - bei Zahlung durch Scheck oder Wechsel bis zur Einlösung - bleiben die Lose Eigentum des Einlieferers. Ein Anspruch auf Herausgabe der ersteigerten Lose besteht erst nach vollständiger Kaufpreiszahlung. Kosten des Geldverkehrs gehen zu Lasten des Käufers.
6. Ist der Käufer mit seiner Zahlung in Verzug, werden Zinsen in Höhe von 1 % pro angefangenem Monat berechnet. Der Zinssatz kann höher oder niedriger angesetzt werden, wenn der Versteigerer eine Belastung mit einem höheren Zinssatz oder der Käufer eine geringere Belastung nachweist; der Zinssatz beträgt aber mindestens 5 % über dem Basiszinssatz pro Jahr. Kommt der Käufer seiner Zahlungsverpflichtung nicht nach oder nimmt er die ersteigerten Lose nicht ab, so ist der Versteigerer berechtigt, vom Ersteigerer einen pauschalen Schadensersatz von 25 % der Zuschlagssumme als Ausgleich für entgangene Einlieferer- und Käuferprovision sowie entstandene Aufwendungen zu verlangen, sofern der Käufer nicht nachweist, daß ein Schaden überhaupt nicht oder nicht in der Höhe der Pauschale entstanden ist. Die Geltendmachung eines nachgewiesenen höheren Schadens durch den Versteigerer bleibt unberührt.
7. Die Versteigerung ersteigter Lose erfolgt auf Rechnung des Käufers. Wenn der Käufer ein Unternehmer ist, geht die Gefahr auf den Käufer über, sobald die Ware versandfertig der Post oder einem anderen Versandunternehmen übergeben worden ist. Der Versteigerer bietet für die Versteigerung eine Transportversicherung an, deren Kosten der Käufer zu tragen hat.
8. Die zur Versteigerung kommenden Sachen können vor der Auktion besichtigt und geprüft werden. Die Katalogbeschreibungen sind keine Garantien für die Beschaffenheit der Sachen. Der Versteigerer übernimmt keine Haftung für Mängel. Er verpflichtet sich jedoch, Mängelrügen, die ihm rechtzeitig angezeigt werden, unverzüglich an den Einlieferer weiterzuleiten. Im Falle einer Rückabwicklung des Kaufvertrages erstattet der Versteigerer dem Erwerber das Aufgeld; ein darüber hinausgehender Anspruch ist ausgeschlossen.
Reklamationen bezüglich offener Mängel müssen innerhalb von 10 Tagen nach Übergabe oder Zustellung der Lose bei dem Versteigerer eingegangen sein. Der Versteigerer kann zum Nachweis der Mängel vom Käufer auf dessen Kosten die Einholung von Prüfattesten durch zwei voneinander unabhängige Spezialprüfer verlangen.
Bei Sammlungen, Sammellosen oder sonstigen Großlosen sind Reklamationen jeglicher Art, insbesondere im Hinblick auf Qualität und Quantität ausgeschlossen. Sofern die Beschreibung nichts anderes ausweist, sind angegebene Katalogwerte unverbindlich.
Lose, die bereits mit Fehlern beschrieben sind, können wegen weiterer kleiner Mängel nicht reklamiert werden. Fehler, die sich aus den Abbildungen ergeben (Schnitt, Zählung, Stempel, Zentrierung usw.) können nicht zum Gegenstand einer Reklamation gemacht werden.
Jede Reklamation ist ausgeschlossen, wenn Lose oder Marken verändert worden sind. Als Veränderung gelten insbesondere auch Entfernen von Falzen, Falz- oder Papierresten, Wässern, Behandlung mit Chemikalien und Anbringen von Zeichen jeder Art. Erfolgt ein Zuschlag unter Vorbehalt der Prüfung, wird diese vom Versteigerer veranlaßt, wenn vom Bieter nicht anders bestimmt; die Kosten trägt der Käufer. Durch die Abgabe eines Gebotes auf bereits geprüfte Marken oder auf Marken mit Attest werden die Prüfzeichen bzw. Atteste, die dem Käufer zur Einsicht bzw. Kenntnisnahme zur Verfügung stehen, von diesem als maßgebend anerkannt, es sei denn, der Bieter hat sein Gebot unter Vorbehalt der Bestätigung durch einen von ihm bestimmten und von dem Versteigerer akzeptierten Sachverständigen abgegeben.
Marken, die eindeutig als Fälschung ermittelt werden, können von den Prüfern als solche gekennzeichnet werden. Der Auktionator ist berechtigt, den Käufer mit allen Reklamationen an den Einlieferer zu verweisen.
9. Die vorgenannten Versteigerungsbedingungen gelten sinngemäß auch für den freihändigen Verkauf; die Bestimmungen über Fernabsatzverträge finden darauf keine Anwendung.
10. Erfüllungsort und Gerichtsstand für den kaufmännischen Verkehr ist Wiesbaden. Es gilt ausschließlich deutsches Recht.
11. Mündliche Abreden sind nicht getroffen. Änderungen oder Ergänzungen dieses Vertrages bedürfen der Schriftform.
12. Sollte eine der vorstehenden Bestimmungen ganz oder teilweise unwirksam sein, wird die Gültigkeit der übrigen davon nicht berührt.

Stand: August 2015

General Conditions for Auction

1. The auction is held exclusively on behalf of and for the account of third parties.
The auctioneer is authorized to pursue in his own name all rights and claims arising from the vendor's instructions or the knocking down of lots.
2. Lots are knocked down to the highest bidder. The auctioneer has the right in justified cases to refuse to knock down a lot, and to withdraw, combine and divide lots. Equal bids are determined by drawing lots. A bidder is bound by his bid if it is followed by a higher bid which is invalid or which is immediately refused by the auctioneer. In case that a higher bid, which was placed in time, erroneously was overlooked or in any other cases of doubt, the auctioneer may cancel the knocking down and reoffer the lot. The auctioneer may knock down a lot subject to the seller's subsequent approval. The bidder is then bound by his bid for a period of four weeks from the date of making the bid. In case of a lot being knocked down subject to approval it can, however, be sold to another limit bidder without further inquiry. On the fall of the hammer a contract is established between the seller and the buyer. The auctioneer is legally bound, if so requested, to divulge the seller's name to the buyer and the buyer's name to the seller.
3. Written orders to bid will be executed conscientiously and safeguarding the client's interests, but without recourse. The maximum prices as offered will be exhausted only to the extent as necessary to overbid other offers. In case of a bid „at best“ the auctioneer may bid up to three times the start price, in case of bids „at any price“ or „buy“ up to ten times. The minimum bid for lots without estimate or for lots marked with „Gebot“ is EUR 10,-. On-line bidding via the Internet requires the consent of the auctioneer prior to the auction. For processing of the online bids the auctioneer takes no responsibility, especially not in regards to the state and/or quality of the internet connection. The distance contracts laws (Fernabsatzverträge) regarding withdrawals and returns do not apply (§ 312 para 4, No. 5 BGB).
4. The auctioneer receives a commission from the buyer of 20 % of the hammer price plus EUR 1,50 for each purchased lot. The buyer will be charged with the cost of postage, packing, insurance and the cost of import if necessary.
Value added tax (currently 19 %) on the auctioneer's commission and expenses together with value added tax on the hammer price (currently 19 %) if applicable will be invoiced separately. Supplies to Non-EU-Member States are exempted from VAT on commission, expenses and hammer price with presentation of relevant export documents. Supplies to EU customers outside Germany holding an EU VAT-ID-Number under the "Reverse Charge-System", i.e. for commissions and expenses the German VAT does not apply; the buyer is obliged to include the respective VAT in his/her VAT declaration in his/her home country.
5. Bidders are obliged to take over lots knocked down to them. Invoices to room bidders are payable immediately, all other invoices are payable upon receipt. Invoices issued during or immediately after the auction are subject to review and possible amendments; errors reserved.
Persons bidding for third parties should make this known to the auctioneer before the auction; otherwise they may be deemed to be the buyer.
Lots remain the property of the seller until payment has been made in full which includes clearance of any cheques and payment of any bills of exchange.
The buyer has no right to request delivery of any lots until payment has been made in full.
6. If payment is delayed interest will be charged at 1 % per month or part month. This interest rate may be adjusted if the auctioneer can prove that a higher rate or the buyer can prove that a lower rate is justified; the interest rate is at least 5 % higher than the basis interest rate per year. If the buyer fails to pay promptly or does not take up the lots, the auctioneer is entitled to demand flat-rate damages of 25 % of the hammer price in compensation for forgone commission and for expenses incurred unless the buyer can prove that there is no damage or that the amount claimed is excessive. The auctioneer reserves the right to claim higher damages subsequently.
7. The dispatch of knocked-down lots on buyer's request will be effected at his expense. If the buyer is a company, the risk will be transferred to the buyer as soon as the goods have been handed over for dispatch to the post office or another dispatch service. The auctioneer offers a transport insurance, the costs of which have to be born by the buyer.
8. All lots may be viewed and checked before the auction. Descriptions in the catalogue do not mean guarantees for quality and authenticity. The auctioneer is not liable for any defects of the items. He commits himself, however, to transmit without delay complaints about defects to the consignor. In case of reversed transaction the auctioneer will reimburse his commission to the buyer; any further claims to him are excluded.
Claims relating to obvious defects must be received by the auctioneer within ten days of handing over or delivery. The auctioneer is entitled to require the buyer to obtain at his expense reports from two independent experts that substantiate the claims. No claims of any sort, in particular relating to quality and quantity may be made in respect of collections, accumulations and other large lots. Unless stated otherwise, quoted catalogue values are not binding.
Lots already stated to contain faults cannot be returned by reason of further small faults. Defects which can be seen from illustrations (margins, perforations, cancellations, centering etc.) cannot be subject of complaints.
No complaint will be considered if lots or stamps have been altered. Alterations include removal of hinges, hinge remainders or paper adhesions, immersion in water, treating with chemicals and the addition (or removal) of marks of any sort.
If a lot is purchased subject to an expert opinion, the cost of which will be borne by the buyer, this expertising will be arranged by the auctioneer unless otherwise determined by the buyer.
With bidding for stamps which have already been expertised or for stamps with certificates the bidder accepts the expert marks and certificates which are available for his guidance and inspection as decisive unless the bid is made subject to certification by any expert nominated by the bidder and approved by the auctioneer before the auction.
Stamps which are clearly established as forgeries may be marked as such by experts. The auctioneer is entitled to request the buyer to refer all complaints directly to the seller.
9. These auction terms also apply to subsequent sales after auction; the special provisions for distance sales do not apply.
10. Place of fulfillment for either party shall be Wiesbaden; any disputes arising shall be referred to the court having jurisdiction in Wiesbaden under German law.
 - 1.1. No oral variations to these conditions are valid; all alterations or additions must be in writing.
 - 1.2. Should one of the above conditions be unworkable in whole or in part, the validity of the other conditions will remain unaffected.

Current as of August 2015

Tax (VAT) Information

19% Value Added Tax (VAT) on commissions and expenses (not on the hammer price) will be invoiced to all domestic buyers and all buyers from EU countries without EU VAT-ID number.

Supplies to non-EU-Member States are exempted from VAT on commission and expenses with presentation of relevant export documents.

Supplies to EU customers outside Germany holding an EU VAT-ID under the „Reverse Charge-System“, i.e. for commissions and expenses the German VAT does not apply; the buyer is obliged to include the respective VAT in his/her VAT declaration in his/her home country.

For lots marked with a circle (◦) next to the lot number an additional 19% VAT on the hammer price will be charged. This charge does not apply to dealers outside Germany and within the European Union with a turnover tax identification number.

Nor does this tax apply to buyers outside the European Union. In these cases we must prove the export of the material.

For lots marked with a dot (•) next to the lot number 7% import charges (not tax, non deductible) will be charged to all buyers within the European Union. **Buyers outside the European Union will not be billed these import charges, provided export of the lots is proven.**

IMPORTANT INFORMATION FOR DEALERS: All lots without a circle (◦) can be integrated into the marginal system. This also relates to the lots with a dot (•).

The VAT on the commission and expenses can be subject to refund by the German tax authorities. For further information please consult your tax advisor.

Informationen zur Umsatzsteuer

Umsatzsteuer in Höhe von 19% auf unsere Provision und Nebenkosten (nicht auf den Zuschlagspreis) werden allen inländischen und EU-Käufern ohne UID in Rechnung gestellt.

Lieferungen in Drittländer sind gegen Vorlage des Ausfuhrnachweises von der USt. auf die Provision, auf Spesen und Losgebühr befreit.

Lieferungen an Abnehmer aus anderen EU-Ländern mit UID-Nr. erfolgen unter Anwendung des Reverse Charge-Verfahrens, d.h. die Provision, die Spesen und die Losgebühr unterliegen nicht der Deutschen USt.; der Käufer ist in diesen Fällen verpflichtet, die USt. in seiner USt.-Erklärung in seinem Heimatland anzugeben.

Bei mit einem Kreis (◦) an der Losnummer gekennzeichneten Losen fallen zusätzlich zu der Umsatzsteuer auf die Provision 19% Umsatzsteuer auf den Zuschlagspreis an. Diese 19% USt. werden Händlern in der EU (außerhalb Deutschlands) mit einer UID-Nr. nicht berechnet.

Auch bei Käufern außerhalb der Europäischen Union entfällt die Berechnung dieser USt., sofern der Export der Ware nachgewiesen wird.

Im Inland ansässigen Händlern mit UID-Nr. wird diese USt. zwar berechnet. Diese kann jedoch im Rahmen der Umsatzsteuererklärung als Vorsteuer geltend gemacht werden.

Bei mit einem Punkt (•) an der Losnummer versehenen Losen fallen 7% Importspesen (nicht abzugsfähig) an, wenn die Käufer in der Europäischen Union ansässig sind. **Käufern außerhalb der Europäischen Union werden diese Importspesen nicht berechnet, sofern der Export der Ware nachgewiesen wird.**

WICHTIGE INFORMATION FÜR HÄNDLER: Lose ohne Kreis (◦) können ohne Weiteres in die Differenzbesteuerung eingebracht und weiter verkauft werden. Dies gilt auch für die Lose mit einem Punkt (•).
